

CCSA and Ohel are proud to present an intensive summer training opportunity on best practices in Evidence-Based Substance Use Prevention for Youth

Zachter Institute for Training

Learn how to answer the following questions:

- How do I respond to a student who tells me they are using marijuana every day?
- What are the latest drug trends? I feel like something new pops up every week?
- I've noticed that one of my students isn't acting like herself - what is she struggling with and how can I help her?

***Designed for Educators, School-based Mental Health Professionals & Administrators, Youth Support Professionals, and anyone who regularly interacts with youth**

***Upon completion, participants will be able to instruct colleagues on best practices in substance use prevention education and support for students at risk**

Topics Include:

- Current drug trends and challenges facing today's youth
- Science of addiction & risk and protective factors
- Red flags - signs and symptoms of substance use and the intersection with mental health
- Commonly asked questions posed by teens and how to respond
- Creating a safe space for dialogue with our youth
- Navigating teen substance use effectively
- Understanding key concepts in prevention education

Participant Benefits:

- Comprehensive slideshow, resources and presenter's guide
- Ongoing updates of materials disseminated throughout the year
- Additional resources including seminars and open discussions on related topics

This 6-hour course will be offered online (3 hours/day):

July 24 - 25, 2023
