

HAYIDION AD SIZE

HaYidion is moving to a new format viewable only by web. Just as we are reinvigorating *HaYidion* for the new digital age, we are also changing how we view ads. Ads will now be rotating in a carousel, with three ads revolving in a given time frame. Carousels will appear both on the main issue page and on article pages.

New Digital Ad Specs

970 PIXEL X 250 PIXELS
150 DPI
